# 3-Way Draft Manual Weigh Crate

*Exclusively from Livestock Management Systems*

## SWIFT-DRAFT WEIGH CRATE FEATURES & BENEFITS

- Unique rivet-based construction in high-grade lightweight alloy
- Friction-less, heavy-duty alloy sliding entrance and exit gates
- Retractable spring-loaded, solid-panel side-drafting doors
- Adjustable side-panel to prevent sheep from turning around
- Unique anti-slip, matt-finish floor panels for good grip and easy cleaning
- Ability to adjust lead-in race width on weigh crate entrance
- Multi-purpose “anti-jump” bar c/w EID stick reader option
- Utilising latest bluetooth technology for cableless operation
- Supplied with large wheel transport kit for ease of movement
- Available in both right-hand and left-hand entry versions
- Eligible item within the Welsh Farm Business Grant Scheme.

BRITISH DESIGNED AND MANUFACTURED, available only directly from a BRITISH COMPANY with a reputation for support and service of their product range

## RAPPA Mobile Yards

- Smallholder Yard
- Compact Yard
- Standard Yard
- Super Yard

Certified RAPPA Distributor

# RAPPA™

---

## Electric Fencing

With an increase in RTV users, we now offer a choice of winder options to either fit directly onto the rear platform of the machine, or onto the new left hand wind trailed model.

---

## Second Hand Equipment

All our second hand systems are checked and serviced and we also provide reconditioned systems. Second hand units are quite rare and may not be available, so call us for availability and pricing or check out the second hand stock on the website.

---

## Servicing & Repairs

Take advantage of our servicing to help minimise the risk of breakdowns to your equipment. At the end of the season we can provide an extensive and methodical overhaul, allowing you to begin next season with equipment that works like new. Alternatively, where mechanical failure occurs during a busy period, we can assist by providing a replacement unit whilst repairs are carried out.

---

## Spare parts

Our extensive range of spare parts enable us, wherever possible, to supply your requirements. If new parts are no longer available we can provide 'used' parts from second hand stocks. Our spare parts can be dispatched within short timescales using a 24 hour overnight courier.
